

Spanish Partners visit to Holmleigh March 2026

The last week of term featured a 5 day visit to Holmleigh by our partner school in Spain, Susarte Collegio in Murcia. Six children aged 10 and 11 (who stayed with Holmleigh families) and their two teachers enjoyed a very full and fun program of outings and activities, some of which you can see in the photographs here. This visit was the 4th in a series of exchange visits since 2018, following on from our International Erasmus project on Robotics and STEAM education. (Science, Technology, Engineering, Art and Maths.)

The program for the week included visits to Mudchute Farm, Greenwich and Greenwich Market, Leaside Canoeing, Camden Market, The Sky garden, The Science Museum and other sightseeing locations in Central London.

Thanks so much to the families who hosted our visitors, and also for looking after them so well!

We look forward to the return visit to Murcia in May 2026.

Murcia 2026
